

Senior Software Engineer

Design and create @ BuddyNS.com

At BuddyNS.com we are looking for a Senior Software Engineer and architect to grow our product and to start a new, green-field project in the area of privacy.

We think you will love this position:

- You'll **be engaged** because you'll span a diverse of tasks and technologies to never bore.
- You'll **have purpose** because we empower you and make you work at meaningful stuff.
- You'll **boost your CV** because you'll have a say in the roadmap and what you'll learn next
- You'll **boost quality of life**, free to work where & when you want.

Your responsibilities will span:

- 🚀 Develop new functionality on our systems (~50%)
- 🌱 Develop new green-field projects (~30%)
- ⚙️ Build up our DevOps infrastructure (~10%)
- 😊 Overlook customer support (~10%, most of which technical investigation)

Here's some concrete examples of tasks you may attack:

- Shift some API functions to Amazon Lambda
- Build a log processing pipeline in ELK
- Introduce Continuous Integration
- Integrate Telegram into our customer notification system
- Build a new billing system to reliably manage subscriptions over multiple payment vectors
- Build an open-source, decrypting reverse proxy to bring secure DNS to the large public
- Build a new web-based product to improve privacy control at consumers

Some extra cool things about BuddyNS:

- We contribute to the open-source community
- We systematically, happily kick out toxic 🚫 customers

Some technologies we use include Python, Django, XHTML+CSS+JS, Bash, C++, TwistedMatrix, SQLAlchemy, Jinja, Bootstrap, jQuery, Graphite, RESTFramework, Boost, GraphiteApp, Linux, PayPal, Stripe, AWS, Zabbix, Git, Bitbucket, Bamboo, Zabbix, QR codes and many more.

What you bring:

- Fluency in English 🇬🇧
- A "can do" attitude and eagerness to learn the tool for the task
- Experience in software architecture, to assess and select the most suited solution for a problem
- An autonomous and pro-active spirit

We'll make sure you get a healthy amount of tasks at the edge of your skills.

Interested? Contact us at team@buddyns.com , tell us why you think we're a good match and if you have any portfolio to show, we'll love to see!
